

# Anti-Slavery

The first point I want to make is, it is not fair that people from Africa have been taken and be made into slaves.

I say this unfair because Africans need a chance before other people take them and make them into slaves.

This shows that Africans need freedom and want to be with their family in Africa. It also shows that they don't want to be away from Africa.

Millions of slaves died on the boat because of; rats they carried germs, there were no toilets, there was no food, there was no water, when it was freezing you got a cold and no one could help you and when you were there if you were

*dead ( Which you probably were) you would get thrown in the sea.*

*The Africans went to or America. The; you people who wanted the slaves had to pay didn't get them for free.*

*Slaves NEVER got paid!!!!*

*Being on the slave ship was like a nightmare.*

# Slaves are released

In 1820 slavery was a massive thing in America and thousands of slaves were shipped over from poor countries to work even harder than they already were .They were shipped

over on big ships full of people and they were all squashed together. They slept next to someone for the whole journey. In the end they might find themselves sleeping next to a dead body. This could have

happened because of the rats spreading deadly diseases after that they would throw the dead people into the sea.

## In Newcastle, 1972

One out of every three people signed a petition against anti-slavery at the Guildhall near the River Tyne.

This meant that a lot of people were against slavery, I Am very impressed with the amount of people who helped stop slavery and that number grew after everybody heard about the meeting at Brunswick church. There were so many there were queues outside, there were over 300 people there. I am ashamed to hear that a couple of people had a slave and didn't sign petition. At least 2,000 people signed and that was enough to stop slave trade.
